

Whatever you're facing, Best Doctors can help.

My doctor said my back and leg pain might be a degenerative disk disease, but is surgery really my best option?

Get an expert's opinion

I have specific questions I need answered so I can better understand certain aspects of my condition.

Ask a quick question

I'm searching for a local specialist in my specific condition who can answer or address some of my questions and concerns.

Find a specialist

“ My doctor said my back and leg pain might be degenerative disk disease, but is surgery really my best option? ”

Expert Medical Opinion

Have your case reviewed by one of our Best Doctors and get a confidential expert report, including recommendations for the best course of action.

How it works:

Best Doctors will ask you questions about your specific needs, taking account of your unique medical history, location, and preferences. The medical team will also collect all your medical records on your behalf.

An expert physician specialising in your condition will be carefully selected to review your full clinical summary.

The expert will provide their analysis and recommendations in a comprehensive report that will be reviewed with you by a dedicated Best Doctors Member Advocate. It can also be shared with your treating physician upon request.

“ I have specific questions I need answered so I can better understand certain aspects of my condition. ”

Ask The Expert

An expert in your condition will review your questions and give you a simple report with detailed answers.

How it works:

Contact Best Doctors and let us know about your exact questions or concerns. The call is completely confidential.

Your questions will be matched to an optimal expert from our database.

Once the assigned expert reviews your questions, you will receive a report with detailed answers so you have the assurance you need to make more informed medical decisions.

FindBestDoc™

Best Doctors can help you find a leading UK specialist for your specific medical case or condition.

How it works:

Best Doctors will ask you questions about your specific needs, taking account of your unique medical history, location, and preferences.

Just call us and we will conduct a customised search of our expert database guided by your criteria.

We'll recommend two or more top-rated medical specialists who meet your requirements and are in a convenient location for you to visit. FindBestDoc will help locate the right medical expert for an in-person consultation.
